EIGHTBALL

APRIL 18

STIIX BILLIARDS

1. Teams will consist of (1) Male and (1) Female player. Matches will consist of a race to 3 games or 50-minutes, whichever comes first. If the match is tied at the 50 minutes, count the number of balls on the table and the team with the least number of balls will be determined the winner. If the match is tied and both players have equal number of balls on the table, the match will be considered a draw. If a match is determined to be a draw, teams will flip for the break and each player will be given a turn to shoot. Number of balls left on the table will determine a winner. Players must MARK the intended pocket of the 8-ball before shooting it.
2. One team must pocket balls of the group numbered 1 through 7, while the other side has 9 through 15. The team pocketing their group of balls first, and then legally pocketing the 8-ball, wins the game. Players will continue to shoot until he/she misses or a foul occurs.
3. The winner of the coin toss or lag may choose to break or rack the balls. To be a legal break: A) a ball must be made or, B) 4 balls must hit a rail. All balls pocketed on the break remain pocketed. If a team makes the 8-ball on the break, and the cue ball does not scratch or jump the table, that team wins the game.
4. Choice is determined if a ball from only one group is pocketed on the break shot. If balls from both groups are pocketed, the choice remains open until a player legally pockets another ball during his turn at the table. On all shots, a player must strike one of his group balls first and pocket an object ball. NOTE: It is okay to bank the cue ball before hitting the object ball, however after hitting the object ball, a ball must be made or contact a rail.
5. The following result in fouls: A) striking any ball off the table or the cue ball into a pocket, B) moving or touching any ball by means other than legal play, C) shooting with no feet touching the floor, D) coaching or advising a player who is shooting at the time, and E) Deliberately stalling the progress of the game. **Foul Penalty:** Player on opposing team gets ball in hand. This means that player can place the cue ball anywhere on the table.
6. When a player has the 8-ball as his object ball, he/she is required to MARK the intended pocket before the shot, hit the 8-ball first, and then: A) pocket the 8 ball, or B) cause the 8-ball or the cue ball to contact a cushion. If a player fails to either hit the 8-ball or cause the 8-ball or cue to contact a cushion, it is a foul. A loss results if one of the following occurs: A) team makes the 8-Ball in a pocket other than the one marked, B) team makes the 8-Ball when it's not the legal object ball (Except rule #3), C) team jumps 8-ball or any ball off the table when shooting the 8-Ball, and D) Pocketing the 8-ball and cue ball on the same shot.

NINE BALL MAY 2 STIIX BILLIARDS

1. Teams will consist of 1 player playing a single elimination tournament. Player must be 21 years or older to participate. Matches will consist of a race to 4 games or 50 minutes, whichever comes first.
2. On each shot the first ball the cue ball contacts must be the lowest-numbered ball on the table, but balls need not be pocketed in order. If a player pockets any ball on a legal shot, the player remains at the table for another shot, and continues until he/she misses, fouls or wins the game by pocketing the 9-ball. After a miss, the incoming player must shoot from the position left by the previous player, but after any foul the incoming player may start with the cue ball anywhere on the table.
3. The balls are racked in a diamond shape, with the 1-ball at the top of the diamond and on the foot spot, the nine ball in the center of the diamond, and the other balls in random order, racked as tightly as possible.
4. The game begins when the breaker strikes the 1-ball and either pocket a ball or drives at least four balls to the rail. If the cue ball is pocketed, it is a foul, and the incoming player has the cue ball in hand anywhere on the table. If, on the break shot, the breaker causes an object ball to jump off the table, it is a foul and the incoming player has the cue ball in hand anywhere on the table. The object ball is not re-spotted (exception: if the object ball is the 9-ball).
5. Balls are not re-spotted when a player commits a foul. The incoming player is awarded ball-in-hand anywhere on the table. A foul results if one of the following occurs: A) The first ball contacted by the cue is not the lowest numbered ball on the table, B) No ball is pocketed and failure to drive the cue ball or any numbered ball to the rail after the cue ball contacts the object ball, C) Object ball driven off the table and, D) If during an attempt to jump, curve or masse' the cue ball around an impending numbered ball and the impending ball moves, it is a foul.
6. The game ends on a legal shot in which the player legally pockets the 9-ball. Team scores will be determined by calculating 1st – 5th place in both 8-ball and 9-ball events.

SPADES TOURNAMENT
MAY 11
FOUR POINTS SHERATON

1. Teams will consist of 2 players competing in a single elimination tournament. Games will be played to 200 points or 30 minutes, whichever comes first.
2. Using a standard poker deck, with jokers, the object of the game is to take the number of tricks bid. The fancy joker is the highest trump, in the spade suite. The "other" joker is the second highest trump, in the spade suite.
3. Thirteen cards are dealt to each player. The two of hearts and the two of diamonds are removed from the deck. A player must have one or more spades in his/her hand or the hand will be thrown in and re-dealt by the dealer.
4. Each player bids the number of tricks they think they can take, beginning with the person to the left of the dealer. Bidding then progresses around the table. There are no "*Minimum bids*" per team.
5. The person to the left of the dealer leads. The suit led is the suit that must be played. If a player reneges, that is, plays another suit other than the one led, that team will automatically lose their bid against their score and the opposing team will add their bid to their score. *Spades cannot be led until they're broken.*
6. Each trick bid taken will receive 10 points. If you bid 6 and take 6, you get 60 points. If you bid 6 and take 5, you deduct 60 points from your score.
7. Sandbagging Rule: Any trick taken over bid deducts 10 points from the score; e.g.; If you bid 6 and take 8, your score is 40 points.

TEXAS “NO LIMIT’ HOLD’EM

May 13

FOUR POINTS SHERATON

Teams consist of two players competing in a single elimination tournament. Player seat assignment is randomly determined. Players advance to the championship table by accumulating chips. Players are eliminated from the tournament when they lose all their chips.

Players begin with 30 chips – 20 black & 10 red. Chip values are: black = \$100, red = \$500. Blinds start at \$100 and \$200 and double in value every 10 minutes for the remainder of the tournament.

At the start of the tournament, the dealer button is placed at seat #6. The small blind is the seat to the immediate left of the dealer button. The big blind is the seat two positions to the left of the dealer button. The dealer button passes clockwise after each hand.

Each player is dealt two “hole” cards face down. Pre-flop betting starts with the player to the left of the big blind and continues in turn, ending with the big blind. Afterwards, the Dealer burns one card and places three cards face up on the table for the “flop”. There is a round of betting. The Dealer burns another card and places a fourth card face up on the table for the “turn” or “fourth street”. There is another round of betting. The Dealer burns another card and places the fifth and final card face up on the table for the “river”. The last round of betting takes place. After betting is concluded, the player showing the best five-card hand wins the pot.

If a player tosses in a single chip of a denomination greater than the existing bet without declaring “raise”, that player is deemed as “calling” the existing bet. For all rounds of betting, there is a maximum of three raises with the minimum raise being the amount of the big blind. A player may push his chips “all in” during any betting round.

If, during the current hand the small blind is eliminated, the dealer button “freezes” for the next hand. The small blind and big blind for the next hand are determined as if the dealer button had moved the big blind is eliminated, the dealer button passes as normal for the next hand. There will be a big blind but NO small blind for the next hand, both the big and small blind are eliminated, the dealer button freezes for the next hand, and there will be a big blind but NO small blind for the next hand.

For the first ten minutes of the tournament, empty seats will pay their blinds when due. After ten minutes, if the seat remains empty, the player will be determined to be a “no show” and the chips will be removed. Players will NOT be seated after the first ten- minutes of the tournament.
